

Service Description Bulletin

Logistics Services

*Metech International - an ISO 9001:2000, ISO 14001:2004
and IAER (International Association of Electronics Recyclers) Certified Electronics Recycler®*

Logistics Services

Metech International offers worldwide logistics services. For more than 25 years we have been moving millions of pounds of material around the globe.

Because of our experience and volume, we have negotiated some of the best rates for freight transportation services.

Metech provides its clients with summary reports on freighting activities. Freight bills are audited to ensure charges are being applied correctly. We can offer freight payment service to the carrier within 10 days. We determine the

most economical means of transportation and provide routing instructions for the carriers. We can issue letters of credit and duty drawback. We also audit for proper classification, exemption, discounts and total charges.

The net result is savings to you. In fact, most of Metech's logistics customers find they save between 10% and 30% in transportation costs by using our services.

If you are not using Metech for logistic services - you're spending more than you have to.
