Fact Sheet

Intellectual Property Protection

*Metech International - an ISO 9001:2000, ISO 14001:2004
and IAER (International Association of Electronics Recyclers) Certified Electronics Recycler®*

At Metech, we know and understand that secure data removal not only protects your business from competitors, but also mitigates risk associated with unlawful release of confidential records you have on file.

Clients, who demand traceable, documented and responsible materials disposition, come to Metech International for their asset management services.

Whether you have obsolete inventory or end-of-life electronics, Metech will

develop a program specific to your needs.

By using Metech, you avoid the risks of environmental, informational and technological exposure. Proper processing, risk mitigation, material tracking - we call it Accountable Resource Management® (ARM®).

For your protection, be ARM'ed by Metech!

We not only say it, we do it!

Highlights of Service Offerings:

- Certified data removal/destruction and computer hardware recycling
 - DOD/Infosec data erasure solution
 - 100% physical destruction when required
- Demanufacturing/Equipment disassembly services to recover parts or specific materials from obsolete or non-functioning equipment
